

WECA VDV Lab Donation Wish List (Latest revision: Sept 27,2018)

Thank you for considering a donation of materials to a WECA training facility. If you do not have these materials on your shelves but still wish to donate, our local suppliers are Graybar and Platt. Please also feel welcome to use your normal supply channels-- we're sure they will appreciate the business. For questions or donation logistics, please contact VDV / FLS Lab Managers Steve Kappes (skappes@goweca.com) or Neil Pesarillo (npesarillo@goweca.com)

	Series 6 Quad Shield (RG6) Commprassion Connectors	Any		Sacramento / San Diego

Category	Item	Quantity Needed	Estimated Cost	Training Facility
Systems and Components				

We are also looking for new systems and componenets used in low voltage installations. These systems will be used as teaching and display material used in the class rooms. Our over all vision of the classroom will have tangable items that can be used in the teaching process. If you have a Fire Alarm System, Fiber Trays and Connectors, Nurse Call, Wall Mount Data Cabinet with Components, Intrusions Systems, Access Control, CCTV or CATV Components. TV,s computers, monitors, convertors, panels, older radios and communication equipment.□

We appreciate any and all donations given to our organization. Our hopes are to train our apprentices with the best knowledge they can possibly have and working with different types of equipment helps with that goal.
